

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

1	IoT+ Small Data: Transforming In-Store Shopping Analytics & Services
2	Android Application Development (PICKSTORE) using Cloud Computing
3	Internet of Things Based Architecture of Web and Smart Home Interface Using GSM
4	Internet of Things: Ubiquitous Home Control and Monitoring System using Android based Smart Phone
5	Smart e-Health Gateway: Bringing Intelligence to Internet-of-Things Based Ubiquitous Healthcare Systems
6	Sketch based Shopping using Android
7	Remote Docs and Personal Security
8	Uber for Bike
9	Speech driven interaction for blind people in android
10	Tile = Tagroid using android application
11	Smart Hotel Ordering system
12	User-Defined Privacy Grid System for Continuous Location-Based Services
13	Real-Time Detection of Traffic From Twitter Stream Analysis
14	An alternative proposal of tracking products using digital signatures and QR codes
15	Android Based Profile Switching System
16	Build in Face Recognition for Mobiles
17	Design of a communication aid for physically challenged
18	Camera based attack detection and prevention techniques on android mobile phones
19	Search for a global positioning system device to measure person travel
20	Broadcast portal for College campus

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

21	COVERT: Compositional Analysis of Android Inter-App Permission Leakage
22	A Location-Privacy Threat Stemming from the Use of Shared Public IP Addresses
23	Intelligent Music Player using Emotion Recognition
24	PMSE: A Personalized Mobile Search Engine
25	Android Based people corner redressal system
26	App for agriculture system
27	Student faculty document sharing android project
28	Screen sharing for Android App
29	Location based Ciphering for data Security
30	Shopping App with cloud facility
31	Android based blood bank system
32	Android app based Voting system
33	Context-Based Access Control Systems for Mobile Devices
34	Privacy - Preserving Relative Location Based Services for Mobile Users
35	Identity-Based Encryption with Outsourced Revocation in Cloud Computing
36	Android with NLP
37	Smart Diary using Android
38	Application Lockbox
39	Android application based on Image Transfer to track smartphone
40	Session password based android application
41	Android based equation solver
42	Universal Cab Booking app
43	Energy Cost Models of Smart phones for Task Offloading to the Cloud

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

44	Governance Model for Cloud Computing in Building Information Management
45	Public Integrity Auditing for Shared Dynamic Cloud Data with Group User Revocation
46	Enabling Efficient Multi-Keyword Ranked Search Over Encrypted Mobile Cloud Data
47	Anti-theft for Android Based Devices
48	Shared Authority Based Privacy-Preserving Authentication Protocol in Cloud Computing
49	Using Location Based Encryption to Improve the Security of Data Access in Cloud Computing
50	A Profit Maximization Scheme with Guaranteed Quality of Service in Cloud Computing
51	A Scalable and Reliable Matching Service for Content-Based Publish Subscribe Systems
52	Mobi Share: Sharing context-dependent data & services from mobile sources
53	Mobile app development for the Indian market
54	Daily life activity tracking application for smart homes using android Smartphone
55	Friend book: A Semantic-Based Friend Recommendation System for Social Networks
56	Shaping Customer Confidence in Online Purchasing Decision: The Role of DSS Tools Supporting an Information Aggregator
57	A Personal Mobile Commerce Pattern Mining and Prediction using Android Smartphone

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

58	Mobile Phone-To-Phone Personal Context Sharing
59	Online music player
58	Extend Your Journey: Considering Signal Strength and Fluctuation in Location-Based Applications
59	Domain specific search of nearest hospital and Healthcare Management System
60	Object detection in dynamic background for visual surveillance Applications
61	Energy and latency impact of outsourcing decisions in mobile image processing
62	Plant Leaf detection using Android
63	Authentication schemes for session passwords using color and images
64	Implementation of Smart Video Surveillance System for Capturing photos using Android based Phones with SMS notification
65	GPS based human motion monitoring system using android Smartphone
66	Cloud based Intra-College Communication Information System using Mobile Clients
67	MobiCrop: Supporting Crop Farmers with a Cloud-Enabled Mobile App
68	A Location- and Diversity-aware News Feed System for Mobile Users
69	People's Corner
70	BUS TRACKING ANDROID APPLICATION
71	A Tracking System Using Location Prediction and Dynamic Threshold for Minimizing SMS Delivery
72	Android Phone Optimization
73	Evaluation of human activity recognition and fall detection using android phone

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

74	Attendance System using NFC Technology and Embedded Camera Device on Mobile Phone
75	Procure Pass - A User Authentication Protocol to Resist Password Stealing and Password reuse Attacks
76	Smart parking system using android
77	Android Railway Ticketing with GPS as Ticket Checker
78	Protection and Monitoring of School Kid Using Android Virtual Devices and Near Field Communication
79	Prototype of Bus ticketing application using Near Field Communication(NFC) technology on Android device
80	M-Commerce- Location Aware Advertisements / M-Wallet
81	Android Suburban Railway Ticketing with Wi-Fi as Ticket Checker
82	How Long to Wait? Predicting Bus Arrival Time With Mobile Phone Based Participatory Sensing
83	Geo-Social Semantic Profile Matching Algorithm for Dynamic Interests in Ad-hoc Social Network
84	Tracking context of smart handheld devices
85	Mobile Location aware Notifier / Task scheduler
86	Location tracking using Sms Based on Android Mobile.
87	A Usable Android Application Implementing Distributed Cryptography for Election Authorities
88	Students' performance evaluation in online education system Vs traditional education system
89	Online Reservation System Using QR Code based Android Application System
90	Design and implementation of student information management system

## ANDROID PROJECT TOPICS FOR COMPUTER, IT

91	Accident Report System
92	Secure Transmission Medical Data for Pervasive Healthcare System using Android
93	HIDING IN THE MOBILE CROWD :LOCATION PRIVACY THROUGH COLLOBORATION
94	Vehicle theft control system android phone by using Bluetooth, GSM, GPS and finger scanner
95	An analysis of vibration sensors for Smartphone applications using camera
96	Android phone based Drunk and drive detection
97	Wedjat: A Mobile Phone Based Medicine In-take Reminder and Monitor

Note: - This is an sample project list for latest updated topics call us or fill free enquiry form...!
